

BOXED INK ROLLERS / BRAYERS

Introducing our new range of ink rollers with retail packaging in 4 languages. Each box comes with information to help explain the advantages of each type of roller, a pictorial guide on its usage and a euro hanger slot. Our new retail-boxed standard roller now comes with a machine-ground EPDM rubber roller surface, bringing a high-quality fully-ground roller to a new lower price point than before. The perfectly concentric surface provides excellent pickup and deposit of ink and more consistent results every time, making for a better user experience. The Professional and Soft Rubber rollers are also now also available in retail packaging, providing useful information to your customers in 4 languages, and ensuring that the professional ground rollers, and soft rollers are protected and reach your customers in perfect condition.

MASTERCUT™

Stamp Carving & Printmaking Blocks

Carve your own printing stamps or experiment with artisan printmaking techniques using this amazingly easy to carve, eraser-like material. Essdee MasterCut™ is formulated for extremely easy carving making it safer and easier to use than other materials. MasterCut™ holds fine detail without cracking or crumbling and yet resists pressure making it usable in a printing press. This double-sided material can be drawn upon with a pen or pencil due to its light colour and ink receptive surface. It can be used with ink pads or block printing inks for a multitude of creative possibilities. MasterCut™ comes in retail packs of 2 pieces with instructions in 4 languages and a euro hanger slot.

MASTERCUT™ PRINTING STAMPS

Packs of 10 self-adhesive MasterCut™ Printing Stamps for use with the Lino Cutter and Stamp Carving Kit. Simply carve your own stamp designs using these discs of our amazingly easy to carve MasterCut material.

MCD1 10 x 45mm MasterCut™ self-adhesive stamps
